

# Ontario Wrestling Development Program

The Ontario Development Program is an extension and follow-up, to our very successful Canada Summer Games Program of the past two years. The program, open to wrestlers from Cadet to Junior, is designed to give developing wrestlers the opportunity to enhance their skills through camps, competitions and international travel. We are looking for wrestlers who are willing to commit to the program with the goal of long term development. Wrestlers who wish to be considered for the program, should complete the application form and forward it to Kimin Kim (see below).

Program staff will use a number of top tournaments to identify talent including the recent Kris Kringle Classic, the upcoming Tournament of Champions and the Provincial Championships. Top-level club and some school events will be used to identify talent. Ranking for the program will not be based on placing at any single event or events. Tournament results will put you in the Talent ID pool, your commitment to the program of camps and other components of the program will determine selection for Provincial Team Programs.

**Athletes who choose to participate in other programs such as National Team programs are encouraged to do so, but will likely not be selected for the Team Ontario Summer Programs.**

Coaches who feel their athlete should be on the ID list can contact Program Coordinator Kimin Kim to request this consideration.

Final Selection of Team members will be done by Program Coaching Staff in consultation with the Vice-President, Technical of the OAWA.

Winning Provincials or Nationals will not get you on a trip. Winning gets you noticed, your performance with the program will earn an invitation to travel with Team Ontario. Selection of team members for summer camps, competition and travel will be based on both achievement and commitment to the program.

The proposed schedule of events is listed below. For further information, please contact :
